

YOUR CONNECTION TO THE INDUSTRY'S MOST GIFTED FOALS ...

With a pedigree of this magnitude in "trotting royalty," it is no wonder why the most renowned breeders of English Pleasure horses are choosing Hucks Connection V.

The industry's elite trainers of National Champions are taking note of these gifted foals who are showing all the show ring potential of their accredited sire.

"He is a very, very nice horse that has done extremely well in the show ring. I know with his pedigree, successes and athletic ability, he is definitely a stallion that can offer positive influences in our English horses. I have seen his foals, and they are everything you would want in a show horse."
~ Carmelle Rooker

SIGNED, SEALED & DELIVERED BY:
HUCKS
CONNECTION V

"What I find to be particularly exciting about Hucks Connection V as a sire is his ability to pass on not only his athletic ability but his remarkable personality, his strong work ethic and unending energy and brightness. His foals are equally eager to go to work and show the same fluid motion and forward drive as their sire.

We had our first foals by Hucks Connection in South Africa this year and had to scramble to quarantine and collect enough semen to ship before their breeding season began, in order to fill all our requests for breedings. He will be a huge asset to a country where most Amateurs train and show their own horses, as his foals will be very manageable and at the same time all show and go when the gate opens."
